CAREER OBJECTIVE

- Motivated and detail-oriented Software Testing fresher with a strong foundation in Manual Testing, Automation Testing, API Testing, Selenium with Java, Sound knowledge in Playwright basics and MySQL.
- Experience in drafting test cases, Test Plan ,Test Case Design, identifying defects, Documenting Functional Flows.
- Executing functional and regression testing, Sanity Testing, Integration Testing, System Testing, UAT, Smoke Testing and automating test scenarios using Selenium WebDriver.
- Eager to contribute to a dynamic organization by delivering high-quality software solutions while continuously enhancing my technical skills and growing as a QA professional.

TECHNICAL SKILLS

Manual Testing: STLC, SDLC, Test Case Design, Defect Lifecycle, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, UAT.

Automation Testing: Selenium WebDriver, Test Automation, TestNG, Page Object Model (POM), Maven.

API Testing: Postman, REST API Testing, HTTP Methods (GET, POST, PUT, DELETE), JSON Validation.

Programming Language: Java.

Database: MySQL (SQL Queries, Joins, Subqueries, CRUD Operations).

Framework: Selenium WebDriver, TestNG ,Playwright.

IDE Tools: Visual Studio, Eclipse.

Bug Tracking Tools: Jira.

PROJECTS

Hotel Booking Website Automation using Selenium WebDriver | Selenium WebDriver, ChromeDriver, XPath Jul,2025

- Developed an automation script to simulate user interactions on a hotel booking website using Selenium WebDriver.
- Automated tasks like searching hotels, applying filters (location, price, rating), and navigating through booking steps. Implemented form filling automation for guest details.
- Used robust locators (XPath/CSS Selectors) to handle dynamic page content and pop-ups.

Bus Reservation System | Java ,MySQL Aug,2025

- Designed and developed a Bus Reservation System using Core Java, implementing OOP principles such as encapsulation, inheritance, and polymorphism.
- Implemented features like seat availability checking, ticket booking, cancellation, and passenger details management.
- Used DB to store and manage bus, seat, and customer data efficiently.

DiaHealth Analyzer using SQL | Data Cleaning,SQL,Grouping and Aggregation. Sep,2025

- Analyzed diabetes patients' historical data using SQL queries to identify age categories most affected by diabetes.
- Performed data cleaning, aggregation, and trend analysis (age-wise, gender-wise, glucose level comparisons).
- Utilized SQL techniques (joins, subqueries, window functions) to generate insights and risk patterns.

CERTIFICATION COURSE

Besant technologies | Software Testing Intern — Jun,2025 - Nov,2025

- Gained hands-on experience in automating web applications using Selenium WebDriver with Java, including test case development, execution, and debugging.
- Familiarized with software testing methodologies such as manual testing, functional testing, and test automation, with exposure to real-world test scenarios and bug tracking.
- Worked with SQL to write queries for data validation, test data preparation, and backend testing as part of comprehensive test coverage.

NPTEL: Java

EDUCATION

Hindusthan College of Engineering and Technology (Coimbatore) — 2022-2025

B.E. Computer Science Engineering — CGPA: 7.2/10

CPAT-TVS College and Advanced Training (Chennai) — 2019-2021

Diploma Mechatronics (SANDWICH) — Percentage:87/100

Sahayamatha Matric.Hr.Sec.School (Karaikudi) — 2018-2019

HSC Computer Science — Percentage:65/100
